

# PHD SEMINAR

## SCIENTIFIC WRITING, EDITING AND PUBLISHING

21 JANUARY 2025

10.00-12.00

Bldg Agorà - ex U6

Meeting Room  
(4th floor)

The seminar is aimed at **second-year PhD students** who wish to **improve their academic writing and editing skills**. The aim is to build and outline all those skills and strategies needed to deal with the writing process (the organisation of thoughts, the structuring of the text and the effective integration of sources), as well as the work of writing, editing and publishing theses and scientific articles. In order to do this, we will focus on concrete examples, starting with the participants' own writing projects, in a **collaborative and participatory manner**.

### Speakers:

Dott. **Pietro Agnoletto**, research fellow in Geography, University of Milano-Bicocca

Dott. **Valeria Cotza**, research fellow in Didactics and Special Pedagogy, University of Milano-Bicocca

Dott. **Gianluca Pozzoni**, research fellow in Political Philosophy, University of Milano-Bicocca
